1. What is Earth Science?

Earth science is a broad term for any branch of science that deals with the study of any part of the Earth, including its environments, climates, and composition.

There are several general types of earthscience that are roughly grouped according to the broader fields into which they fall and which correspond to four area that divide the Earth and its immediate environment:

1. the atmosphere,
2. the lithosphere or geosphere,
3. the biosphere, and
4. the hydrosphere

are the domains into which all types of Earth science fall
