ASSESSMENT/EVALUATION REPORT UGC MRP

A	DETAILS OF PROJECT	
	Title of the Project	A Socio economic, Nutritional and Health Evaluation among Worker of Different Sector of Textile Industries
	Total duration of the Project	3 years from 01/07/2015 to 30/06/2018
	Project status	Completed
	Subject	Anthropology
	File NUMBER: UGC Reference No. & Date	F.No.-43-31/2014 (SR) Dated: July, 2015
	Grant Approved	Rs.12,92,000/-
B	EVALUATION REPORT OF EXPERT MEMBER	
1.	Name of the Principal Investigator	Dr. Ajeet Jaiswal
2.	Designation	Assistant Professor
3.	Address with e-mail and Mobile No.	Department of Anthropology, Pondicherry University, R.V. Nagar, Kalapet Puducherry-605014, India, Email : rpgajeet@gmail.com Mobile No.9791201427
4.	Whether work is focused on the title of the project	Yes, Present research work is focused on the title of the Socio economic, Nutritional and Health status of Textile Workers.
5.	Whether original work is done	Yes, Present research work is Original
6.	Whether significant contribution made by the Principal Investigator	The present study highlights that exposure to Textile dust has noticeable effect on cardio-respiratory function rather than on body structure. Most detrimental factors are Period of exposure to textile dust, Smoking habits, Wool/synthetic and dye sector, Scouring and spinning sector, Absence of ventilation facility, Not receiving the safety measure and poor nutritional status

7.	Whether proposed work have relevance to the society/scientific community	Yes , As the finding of the present study explains the relationship between Occupation , Socio economic status and Health
8.	What type of contribution found in the final report Theoretical/Practical. If there are theoretical contributions given by the Principal Investigator, Whether real applications are given	Both Theoretical and Practical contribution found in the final report of this project. Theoretical concept shows that there is direct relationship between period of exposure to textile dust or unhealthy working environment and health of workers especially on cardio-respiratory function. The real applications are properly explained in the final report of the major research project.
9.	Whether Theoretical/Practical contributions and their results and finds are published	Yes, Part of the finding of the present project was published in some of the reputed peer reviewed journal like <ul style="list-style-type: none"> • “An Anthropological and Medical Analysis on Respiratory Problem and Worker’s Working Condition” International Journal of Research in Sociology and Anthropology (IJRSA) Volume 1, Issue 1, 2015, 18-28. www.arcjournals.org (ISSN 2454-8677). • “Industrial Health and Management and Safety in Textile Industry”, International Journal of Business Intelligence and Innovations, Special Volume 2, 2015, 181-186. (ISSN 2348-4705). • “Job Stress and Occupational Accident among Blue- Collar Workers of India: An Anthropological Insight” International Journal of Multidisciplinary Research in Social Science. Volume 2, Issue 01, Dec, 2016, 1-11. (ISSN 2455-7943). • “An Occupational Hazard and Public Health Investigation among the Fabric Workers of India” Asian Man, An International Journal, 2016, 10, 2: 241-246 (Print ISSN: 0974-6366. Online ISSN: 0975-6884). • A Cross-Sectional Study on Industrial Health Hazards among Garment Factories Workers of Tamil Nadu; Asian Man, An International Journal, Accepted for Publication) 2018, (Print ISSN: 0974-6366. Online ISSN : 0975-6884).
10.	Whether results and findings are significant	Yes , The results and findings of the present project is are significant

Details of Publications resulting from the project work

11. Whether the significant publications are made by Principal Investigator in peer reviewed journal

- "An Anthropological and Medical Analysis on Respiratory Problem and Worker's Working Condition" International Journal of Research in Sociology and Anthropology (IJRSA) Volume 1, Issue 1, 2015, 18-28. www.arcjournals.org (ISSN 2454-8677).
- "Child Labor and Indian Carpet Industry" International Journal of scientific Footprints. 2015; 3 (1)9-34. (ISSN 2310 4090). Co author: Sapna Jaiswal
- "Occupational Health and Safety in the Construction Industry in Developing Countries" Innovative Management Practices for Global Competitiveness, Glowplus Publishers, Chennai. Edited Book by Dr Lavanya Latha., 2015: 257-262. (ISBN-817026352-2). Co author: Sapna Jaiswal
- "Industrial Health and Management and Safety in Textile Industry", International Journal of Business Intelligence and Innovations, Special Volume 2, 2015, 181-186. (ISSN 2348-4705). Co author: Sapna Jaiswal
- "Occupational Health Risk and Blood Pressure among Salt Workers of Marakkanam District of Tamil Nadu" International Journal of Research in Sociology and Anthropology (IJRSA) Volume 2, Issue 1, 2016, 36-47. . (ISSN 2454-8677).
- "Job Stress and Occupational Accident among Blue- Collar Workers of India: An Anthropological Insight" International Journal of Multidisciplinary Research in Social Science. Volume 2, Issue 01, Dec, 2016, 1-11. (ISSN 2455-7943).
- "An Occupational Hazard and Public Health Investigation among the Fabric Workers of India" Asian Man, An International Journal, 2016, 10, 2: 241-246 (Print ISSN : 0974-6366. Online ISSN : 0975-6884).
- "Traditional Health Care and Traditional Medicine in India" Archaeology and Anthropology: Open Access. 2(3): 1-2 . AAOA.000537. 2018. (ISSN 2577-1949).
- "Sewage Work and Occupational Health

		Hazards: An Anthropological Insight" Archaeology and Anthropology: Open Access. 2(3): 1-7. AAOA.000538. 2018. (ISSN 2577-1949).
12.	The number of publications made by Principal Investigator in standard reputed journal	9 (Nine)
13.	Whether the contributions made by Principal Investigator is sufficient	Still some more contributions can be made by Principal Investigator as the objective and finding of the study is highly relevant and based on that some more publication or presentation on institutional platform might be possible.
14.	The findings and results of the sanction major research projects are justifiable	Yes, The findings and results of the sanction major research projects are justifiable
15.	Whether completed project work meet the proposed objectives	The objectives have been achieved as may be seen in the Summary and Report
16.	Give your brief comments on the overall work of the project	The present study is first of its kind. It is a new venture that may motivate researchers to research further on these areas. Chapters are well arranged and finding clearly shows the likelihood of cardio-respiratory functions being affected among Textile Workers was maximum.
17.	Any specific comments	Very Good and Highly scientific Research work
18.	Indicate your overall assessment of the project Poor/Good/Excellent	Excellent

Date: 06.06.2018

Place: Madras University, Chennai

Name and Address of Expert:

 Prof. S. Sumathi,
 Professor and Head,
 Department of Anthropology,
 University of Madras-
 Chennai 600005,

 Dr. AJEET JAISWAL
 Assistant Professor
