

**PONDICHERRY UNIVERSITY
PUDUCHERRY
ASSESSMENT/EVALUATION REPORT UGC MRP**

A		DETAILS OF PROJECT	
	Title of the Project	A Socio economic, Nutritional and Health Evaluation among Worker of Different Sector of Textile Industries	
	Total duration of the Project	3 years from 01/07/2015 to 30/06/2018	
	Project status	Completed	
	Subject	Anthropology	
	File NUMBER: UGC Reference No. & Date	F.No.-43-31/2014 (SR) Dated: July, 2015	
	Grant Approved	Rs.12,92,000/-	
B		EVALUATION REPORT OF EXPERT MEMBER	
1.	Name of the Principal Investigator	Dr. Ajeet Jaiswal	
2.	Designation	Assistant Professor	
3.	Address with e-mail and Mobile No.	Department of Anthropology, Pondicherry University, R.V. Nagar, Kalapet Puducherry-605014, India, Email : rpgajeet@gmail.com Mobile No.9791201427	
4.	Whether work is focused on the title of the project	Yes	
5.	Whether original work is done	Yes, It is Original research work	
6.	Whether significant contribution made by the Principal Investigator	Yes, Principal Investigator made a significant contribution as the result of this project clearly explains the relationship between working environment, Socio-economic status and health of the workers. Also focused the point that exposure of occupational dust has visible effect on cardio-respiratory function not on the body structure,	
7.	Whether proposed work have relevance to the society/scientific community	Yes, the present proposed research work has lot of relevance to the society/scientific community. As the results clearly explains that there is a need of proper working environment for welfare of the worker and also for the development of the Industry.	
8.	What type of contribution found in the final report Theoretical/Practical. If there are theoretical contributions given by the Principal Investigator, Whether real applications are given	I think both Theoretical and Practical contributions found in the project report as the practical concept shows that the exposure to Textile dust has noticeable effect on cardio-respiratory function rather than on body structure and theoretical concept shows that there is connection between period of exposure to textile dust or working environment and health of workers especially on cardio-	

		respiratory function. The real applications are properly explained in the final report of the major research project.
9.	Whether Theoretical/Practical contributions and their results and finds are published	Yes, it was published in reputed and peer reviewed journal like International Journal of Research in Sociology and Anthropology (IJRSA), International Journal of Business Intelligence and Innovations, International Journal of Multidisciplinary Research in Social Science, Asian Man,
10.	Whether results and findings are significant	Yes, The results and findings are significant
11.	Whether the significant publications are made by Principal Investigator in peer reviewed journal	<p>Yes, significant publications are made by Principal Investigator in peer reviewed journal</p> <p>1. "An Anthropological and Medical Analysis on Respiratory Problem and Worker's Working Condition" International Journal of Research in Sociology and Anthropology (IJRSA) Volume 1, Issue 1, 2015, 18-28. www.arcjournals.org (ISSN 2454-8677).</p> <p>2.
